Now you'll be watching and listening to an incredible life story. A story dealing with the reality of magic, witchcraft and Satanism. John Ramirez, reports on the personal experiences he had in this field for many years. Whatever one personally thinks or believes about this theme, it seems essential to us to listen openly and impartially to this report. Many have tried to report about the existence of these things and these unbelievable realms but were for the most part not taken seriously. Much about this sounds to unrealistic and unimaginable because it cannot be seen with physical eyes. But only the fact that it cannot be seen, does not prove that it does not exist. Just think about electric power. One cannot see it with the eyes but it still exists. How do we perceive electric power? Simply through its effect, through its unleashed powers. It's the same with spiritual things. These also manifest themselves - even though one cannot see them with the own eyes - so that one can experience the power and effects. The following film is not recommended for children. But all adults watching we wish an educating and enlightening experience.
