

Modern “Democratization-Wars” - Real motives exposed! - “Never again war!” (short version)

Four sovereign nations serve as examples for Kla.tv’s verification that - according to international law - the US government and NATO carried out illegal military operations! Taking a closer look at these countries before and after the wars, it becomes obvious that these wars did not serve to “lib-erate” and “democratize” the population, but rather plunged these sovereign states into chaos, havoc and devastation. But how is it possible that the peoples of the world agree to these military operations? Have a look yourself - and help us to create awareness for this manipulative war-propaganda!
