

16. AZK: Dr. François Billot de Lochner: “Understanding and counteracting the Tsunami of Pornography”

The very title of this lecture brings the monstrosity of the subject to mind. The presence of pornography not only dominates many people through the Internet age, it is an old project from the 18th century with the aim of destroying societies based on Christian values - even to the point of destroying humanity. In this article, the consequences of pornography are first of all shown in a comprehensible way. Afterwards, there are ways to escape this dilemma and protect our children from this epidemic.

Dr. François Billot de Lochner

Born 1951 in France

He is married and father of six.

He studied at the „Institut d’Etudes Politiques de Paris“ in Paris and at the „Ecole de Commerce de Lyon“ (School of Commerce of Lyon), obtaining a doctorate in Economics.

His professional career took him mainly to the world of banking and finance:
