

Golden Age or Luciferian Deception? (by Ivo Sasek)

An emotion of relief is stirring a large portion of independent journalists. In view of right-wing powers becoming stronger and in Donald Trump's re-election, they sense the dawning of a "golden age". Most interestingly, however, the mass media are right now switching over suddenly to panic: Climate lockdown in Spain, world-war warnings from the mouths of German politicians, and saber rattling between the USA and Russia, etc. Is this doomsday mood being created in order to stage a "savior of the world" more effectively? Already Trump's new "helpers" and his own history as a "Jesuit disciple" do not give rise to optimism. Also the continuing hunt for so-called disinformation organized by state agencies, the incessant idolization of artificial intelligence, the ongoing Covid-vaccination recommendations in spite of proven damages and billions-worth criminal convictions of pharma giants – all this and much more regrettably indicates that the world – instead of heading for a "golden age" – is rather at risk to fall victim to a "Luciferian deceptive spectacle". Ivo Sasek shows, however, in a touching way, how we can become part of a millennia-old promise full of hope...

An omnipresent doomsday mood would be the ideal prerequisite for effectively staging a "world's savior". The climate lockdown in Spain in mid-November 2024 serves as a typical example of such catastrophe cries, under the "**category weather signs**".

And a lot more, new scaremongering could be listed, but exactly here a first possible indication of a deliberately planned scenario shows up. How much longer will you refuse to be true light and salt for this world?

"The emergence of the lawless one will occur according to the efficacy of Satan with every act of power and with weather signs and deceptive meteorological signals (also zodiac signs)."

Many see the re-election of Donald Trump and the rise of right-wing politics happening everywhere, as dawn of the long-awaited golden age. All the more so now that Donald Trump has literally proclaimed the golden age is to begin as soon as he takes office. [Source 1]

Left unheeded however, is that the powerful appearance of Jesus Christ in His people set apart for this, will be preceded by a gigantic seductive deception through a fake "prince of peace".

As a "Jesuit disciple" [source 2], Donald Trump unfortunately also belongs to the ancient Roman Cult of the sun and of Saturn. This cult is booming right now. And this because their disciple, by proclaiming the new golden age, conveys the central message of the Luciferian "Saturn Trinity" with pinpoint accuracy and embodies it personally at the same time. After all, Donald's statement is a quote from prophetic poetry written by Virgil in the year 40 B.C. Virgil, who was a sun and Saturn worshiper, prophesied the cyclical rise of Saturn – which was the

Roman “god” who ate his own children in order that they could never become his rivals.

This said, it should be clear to everyone why Saturn has always been another name for Satan. Nevertheless, on the back of its great seal, the USA has eternalized exactly this most central prophecy and meaning of the Cult of Saturn. And Trump has proclaimed himself as the embodiment of the new golden age – “coincidentally” in the new cycle of Saturn, the zodiac sign of lies and deception. By the way, Trump is considered the greatest magician among Satanists.

And in this dramatic hour, I ask you Christians out there once again: How much longer will you refuse to be true light and salt for this world? How much longer will you instead adulate yourselves in deedless self-reconciliation and fruitless worship? For decades you have passively watched our work of investigative education, if anything criticizing that a Christian has no place in politics. When will you finally understand that this is not about politics, but about spiritual battle, about truth or lies, about morality or immorality, about freedom or enslavement, about life or death?

After hearing these things, join the battle lines of all warriors of light and be the light and salt that is needed now together with us! Notice how precisely now, of all times, the mass media suddenly switch to war panic, while a worldwide Trump euphoria is unfolding and a good portion of free investigative educators are drunk on cheering on the new age.

I, however, sense something like a global strategic “calming move” behind this emerging mass media's war cries. What do you think?

Over all the years in which we have been uncovering this hybrid war with its secret genocides, the forced-fee paid media have discredited us without exception as conspiracy theorists. They have fearlessly ignored all our warnings concerning the Ukraine-Russia conflict as well as even fuelling the resulting war with all means.

And now, with the election of Donald Trump and the euphoria of many free journalists, they suddenly spread war panic. However, their “side-inverted” Satanic-Masonic approach rather seems to point to a strategically fomented “process of panic” aiming at a worldwide “coup of relaxation”. Whether by word or deed, an omnipresent doomsday mood would be the ideal prerequisite for effectively staging a “world’s saviour”. In other words, in the near future we must expect a “bipolar giga-show” between all kinds of cataclysmic scenarios and the miraculous workings of the chosen – fake – “prince of peace”.

The climate lockdown in Spain in mid-November 2024 serves as a typical example of such catastrophe cries, under the **“category weather signs”**. I see this as just a first trial balloon: due to the threat of more bad storms, people in Spain were no longer allowed to leave their homes. Did you realize this? Robin Minotti threw light and salt on this matter with the following words: “Exactly as predicted four years ago. The same pattern as with the 'Covid-psy-op': mass psychosis caused by a 'shock' event (e.g. the floods in Valencia) to enforce draconian restrictions and promote the Agenda 2030 goals.

In Málaga, people are snitching on each other for driving or walking outside in heavy rain (just like in 2020!); in Granada, all activities (schools, stores, etc.) were suspended today because of a light rain.” [Source 3]

In the face of climate hysteria, suddenly one did not hear a word about the previous headlines in Morocco World News anymore. As early as August 25, 2024, the headline was: "Concerns in Spain over Morocco's cloud seeding." That means, Spain publicly protested against Morocco's plans to increase its rainfall through artificial cloud seeding. And the fear was: "The artificial modification of weather patterns would have unpredictable consequences for the entire region, especially for nearby areas such as southern Spain." So much for the mendacious weather signs. In the meantime, until the chosen world saviour will have proven his power, there is a lot of money to be made by mendacious weather signs. Of course, the money-hungry power elite will not miss out on this. All of this indicating that the golden age is not quite here yet for all of us, but only the Luciferian age of lies. [Source 4]

So let's take a look next at the aforementioned current deceptive war cries in the mass media: Former NATO Air Force General, Harald Kujat's words headlined: "We have never been so close to World War III". Anyone voting for the CDU party in Germany voted for the deployment of the Taurus system and thus Germany's direct involvement in the war. Ah' now all of a sudden? Why not a long time ago, when all free journalists had already warned of precisely this escalation? This huge mainstream-show demonstrates this.

If CDU member Friedrich Merz has now also clearly spoken in favour of the use of this Taurus system and Putin has responded by threatening to launch missiles at Berlin and other German cities, that has absolutely been nothing new, do you understand? This definitely reeks of an underlying plan. [Source 5]

It is about Europe's war agenda taking shape. Trump's announcement that he wanted to end the war in Ukraine quickly, was the occasion for the EU leaders to alert and frighten all of Europe. And now they are pushing their own agenda. In a further step, the designated new EU foreign affairs representative Kallas declared that "Ukraine's victory" would have to be considered highest "priority" for the EU and that thumbscrews had to be tightened against China. [Source 6]

Also Sweden and Finland are currently scaring their populations about a possible war by means of five million brochures and a website. [Source 7]

Germany, in its 1,000-page secret document '**Operation Deutschland**' (Operation Germany), is currently planning their course of action if World War III occurred - with 800,000 NATO troops and 200,000 vehicles, they would form Europe's front line, as it is called. [Source 8]

Joe Biden has just authorized an attack on Russia with US missiles! [Source 9]

As a result, Germany now finds itself in the sights of Russian missiles that cannot be intercepted and would reach Germany within minutes. The new shock being that the purely theoretical danger is over now with this.

And a lot more, new scaremongering could be listed, but exactly here a first possible indication of a deliberately planned scenario shows up: Exactly now, Zelensky is suddenly taking a step towards Putin, ready to negotiate, and is calling for an end of war by 2025. He is even considering Russian control of Ukrainian territories. How is that possible? Very simply: In this way, Zelensky places Trump's much-vaunted deals undeniably in the focal point. Trump, the Prince of Peace! [Source 10]

But, do not rejoice too early. Let us rather take a closer look at Trump's true current deeds: A golden age for Europe could perhaps emerge if Trump had announced the immediate restoration of the Nordstream pipeline at the perpetrator's expense, namely the Deep State, which has been recently uncovered. [Source 11]

Or if he had proclaimed Germany's liberation from its over 80 years as US prisoner of war [source 12]. Or the immediate end to 100 years of strategic Deep State attacks [source 13] that have insidiously kept Germany separated from Russia, etc.

Instead, however, Trump has appointed Susie Wiles as the new Chief of Staff for his incoming administration: She was previously known only as an operative and **TOP lobbyist for Big Pharma**. [Source 14] Trump also just appointed **warmonger** Marco Rubio as Secretary of State. [Source 15] Further, Trump has just named **warmonger host** Pete Hegseth of mainstream Fox News as his Secretary of Defense.[Source 16] Look at the deeds, I keep saying.

Also take note of the developments characterizing the new savior Elon Musk: By supporting Donald Trump in his election campaign, his Tesla shares rose by 15% on election night. As Musk owns 13% of all Tesla shares, he became 15 billion dollars richer after Trump's victory. That's 15,000 x 1 million dollars income in a single night, you understand the game?

Also Howard Lutnick, just like Elon Musk, is a leading figure in Trump's team. Both propagate "carbon pricing" and do everything in their power to generate a lot of money with carbon taxes and emission trading. The promised golden age is thus clearly not beckoning to you, me or humanity, but just to these self-proclaimed saviours. So bring light and salt upon these crooks, for they are currently working on the largest money-milking machine and the biggest prison of all times for us. They use their babble of peace, freedom and golden prosperity, to distract the peoples from what they are truly doing. [Source 18]

Elon Musk, along with mass murderer Bill Gates, has ascended to king status over artificial intelligence, or AI. By buying up Twitter and renaming it "X" in the name of censorship-free reporting, Musk has been able to mislead a large proportion of independent intelligence experts. And while they cheer him on, "X" banned KLA.TV right from the start, just as Twitter had done before.

Anyone with a bit of brain should have recognized from the very basic concept of Twitter that this is about a drastic censorship machinery in itself. First the bubble and then this only-remaining short messenger procedure prevents any detailed educational work in the bud. Does no one understand this? And now, in the name of freedom of expression, these AI giants are providing more and more unimagined opportunities to sabotage the free investigator scene. But how this? Well, via chatbots, for example, which immediately track down any forbidden truth and report it to those who desire to shut us up.

By the way, tracking down so-called disinformation and conspiracy theories is currently being propagated in very extensive television series. The state is very officially financing it and recruiting for it even in local schools. The reporting office "REspect!" is a first official government-sponsored partnership dedicated to monitoring Facebook, "X", and so on. All citizens are supposed to report to it as soon as they come across fake news or hate speech online [source 19]. I say a bit sarcastically: Of course, a completely unsuspecting Elon Musk could not have

expected this just as Mark Zuckerberg and other disciples of the highest-degree-Lucifer Cult...

The reporting office “REspect!” also is accredited to bear the sweet title “Trusted Flagger”. So, this “neo-Stasi system” is currently training whole armies of “secret-police disciples”. Snitches who are then allowed – and indeed expected – to trigger legal hunts on declared conspiracy theorists. And of all things, artificial intelligence applied for this purpose, which also is currently being misused for total surveillance, in front of everyone’s eyes, is simultaneously being praised in every conceivable way.

Advantages through AI are being glorified in all colours, shapes and flavours in countless channels on TV, radio, in the press, in school lessons, etc. However, at best you can catch rats with bacon, but never will you catch beings that are destined for greater things.

Of course, as usual, guided opposition battles are waged by some “data protectors” representing us. But this, as usual, only is a smoke screen so we are strategically being lulled and passively fall asleep. Total domination of every single area of life is and remains the ultimate goal behind this all. To round off this topic, I recommend my two prophetic films “DNA Lock down” (www.kla.tv/16966) and “Sophie and the Cult Leader” (www.kla.tv/21245). Bear in mind, at the time of production of this movie, AI and cell phones with displays had still been pure utopia. However both films are more topical than ever. Above all, understand that artificial intelligence is a product of the new Luciferian age. AI is the greatest temptation we have ever been facing because it is undermining and castrating our divine dispositions, qualities and abilities. Now is the time where we should and can activate the divine perfections in us that were commanded by Jesus. (Mt 5:48). By principle, this is only possible in the face of the massive Luciferian onslaught, not before. The scripture verses shown behind me speak about this (Ps. 23:5/ 2 Thess. 2:7-8). In other words, if we do not allow ourselves to be seduced by AI baiting us on all sides, we will find our way back to our divine perfection in this age, which will make AI appear like a smudgy, rusty can. Please choose what you like better. [Source 20]

The following news are also proof of the fact that the golden age is not yet dawning, at least not for humanity, but rather the Luciferian age: In some German schools there are first developments to force pupils to develop Antifa-concepts. So instead of teaching pupils political neutrality and mature thinking, secondary school students have to design programs to counter the “shift to the right”, like the move towards voting AfD among younger voters. [Source 21] Instead of coming to terms with the corona fraud that has long been exposed and warning humanity against further mRNA gene therapy as well as protecting them from these deadly fraudulent vaccinations, the vaccine murderer Big Pharma is now even allowed to introduce its vaccination lessons in German schools. [Source 22]

And this despite the fact that a new study has evidenced that the number of heart attack deaths among Covid vaccinated people increased by 1.236% after their vaccination. [Source 23]

Nevertheless, politicians and education authorities are allowing the new vaccination lessons in schools – despite the fact that the Robert Koch Institute already confirmed in court that the RKI protocols that were exposed upon court order by the organization Multipolar are genuine. After all, they evidenced in print that the entire “Covid fake vaccination story” was just a politically-controlled

felony in the form of unauthorized experiments carried out on the peoples. [Source 24]

As well, no golden age is in sight, when we take notice of the horror news story that the WHO already orchestrated a simulation for a new 2025 pandemic back in 2022. And once again, millions of dollars are being invested into upcoming vaccines. According to Gavi, these are intended to combat a possible next pandemic caused by the so-called Marburg virus, which to date has only occurred in isolated cases in Africa. [Source 25]

At the beginning of November 2024, the nationwide treatment of newborns with the dangerous so-called monoclonal RSV antibody began in South Tyrol, Italy. And this despite the fact that the Italian Federal Health Authority (Istituto Superiore di Sanità) has spoken out against it because significant risks to the newborns had been identified. And according to the Swiss midwifery trade journal "Obstetrica", RSV antibodies are supposed to be administered to our newborns, too, as soon as possible between October and March.

Despite all these crimes, the Swiss Federal Office of Public Health and the Federal Commission for Vaccination Issues are again recommending the COVID-19 fake vaccination in fall/winter for pregnant women from the second trimester on. This is supposed to protect expectant mothers and their unborn children from the slightly increased risk of a severe case and pregnancy complications. [Source 26]

And this while demonstrably justified vaccine-refusers are continued to be stubbornly persecuted. They are embroiled in legal proceedings and banned from their professions. Criminal government officials are still unhesitatingly collaborating with pharmaceutical companies such as Pfizer, Glaxo, Merck and Sanofi. Although in the last 10 years, these companies have been sentenced to pay no less than 35 billion dollars in penalties, damages and fines. So, in short, all these companies are rightly convicted criminals, serial criminals whose entire business model consists in committing crimes. [Source 27]

The fact that all this is simply being criminally ignored is irrefutable proof for the fact that the golden age is still a long way off. In fact, all this ignorance reveals the confusing nature of the Luciferian age: Countless senior physicians, such as Dr. Jörg-Heiner Möller, testify to an ever-increasing tide of vaccine side effects. They warn of the worst illnesses ever experienced as a result. The physicians say this, not Ivo Sasek! Nevertheless, absolutely nothing happens. According to Dr. Möller, the Paul Ehrlich Institute criminally ignores almost all reports of vaccine injuries and stubbornly refuses to acknowledge them. [Source 28]

Once again, this was just a tiny segment of the current Luciferian deliberate confusion. 1000 further scandals must remain unmentioned for the sake of time. Such as for example, the state-sponsored stimulation of trans-sexuality and the associated surgery at the taxpayer's expense. This is gaining more and more momentum, although countless people who have undergone transsexual surgery are already reporting back, severely depressed, as victims of an evil madness. More and more are sealing their bad decision with even more headless suicide. So, no golden age, also in terms of the ever-increasing destruction of the family, or the strategically expanded abortions, the destruction of our nationalities and natural sexual emotions, right up to more and more forced sterilizations camouflaged as vaccinations. Aren't all these examples and thousands more evidence for the fact that the golden age can currently only be a Luciferian, deceptive spectacle at best, as written in **Mt 24:23-24: "If anyone says to you, 'Behold, here is the Christ' or 'There He is', do not believe him! For**

false Christs and false prophets will arise and will show great signs and wonders, so as to mislead, if possible, even God's chosen ones."

As I emphasize again and again and have worked out from the original texts of the New Testament: The so-called return of "Christ" no longer happens through an individual person, but through you and me, through every person who loves justice. Only if all of us will become light and salt, the power of God will, in other words, bring about the overcoming of all evildoers, which we have seen here at work anew. Therefore stay tuned with us and spread our programs wherever you can. Save the Kla.TV archive on your private computers or hard disks and pass it on to at least 2 reliable people who are bearers of truth, who will then pass it on to 2 others for dissemination and they do the same and so on.

In this way we all become a partial fulfilment of the prophecy as it has been in our Bibles already for 2000 years: **2 Thess. 2:8,9: "And then that lawless one will be revealed, whom the Lord Jesus will remove through the spiritual action of His mouth, and will render powerless by the manifestation of His presence** (through us, through you and me - editorially added); **<him,> whose arrival occurs according to the efficacy of Satan with every act of power and with weather signs and meteorological signals of deception."**

On behalf of all mankind, I thank you for this.

I am Ivo Sasek standing before God in the 48th year.
