

The AIDS-Virus-Theory

After around 30 years of the AIDS-Virus-Theory there still isn't any solid evidence for the existence of a virus. That gives reason to suspect that we're dealing with a far-reaching error here.

Welcome to today`s program ladies and gentlemen.

After around 30 years of the AIDS-Virus-Theory there still isn't any solid evidence for the existence of a virus. That gives reason to suspect that we're dealing with a far-reaching error here.

The AIDS symptoms - which certainly can't be denied - seem to be triggered elsewhere. You can't exclude that the AIDS-Virus-Theory might be a clever fake.

In this case, though, a very profitable one, if you only think of the gigantic profits of the pharmaceutical giants for so-called anti-AIDS-drugs.

Help to end the suppression of information on AIDS so that a new appraisal of the existing data can start.

Thank you for your help and join us again next time.
