Where does the dangerous corona virus come from? Could it have been deliberately released at the site of the outbreak? Why are there several patents on corona viruses and what does the pandemic have to do with the 1981 thriller by bestselling author Dean Koontz "The Eyes of Darkness"?

SCAN ME!

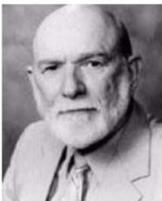

1. Where does the dangerous corona virus come from?

Virologists note: *The dangerous corona virus originates from a laboratory and has been genetically modified.*

- The **virologist Dr. Alan Cantwell** proves with 107 experimental references that the genetic manipulation of corona viruses has been taking place in medical and military laboratories since 1987.
- An expert analysis by **virologist Dr. James Lyons-Weiler** shows that a unique fragment in the gene sequence of the virus can only have been inserted in the laboratory.

The media report that snakes, bats or even scaly anteaters are the cause or carriers of the virus.

"I quickly discovered that for over a decade scientists have been genetically engineering animal and human corona viruses to produce disease-causing mutant and recombinant viruses. No wonder that WHO scientists have identified the SARS/Corona virus so quickly. [...] This unsupervised research produces dangerous artificial viruses, many of which have the potential to be used as bioweapons." (Quote by Dr. Alan Cantwell)

Several patents have been officially registered for corona viruses. One patent was applied for by the Pirbright Institute in 2015. This institution is financed by the **Bill and Melinda Gates Foundation**, among others.

BILL & MELINDA GATES foundation

Is it still just a coincidence that the Gates Foundation held a simulated exercise in New York on October 18, 2019, with a scenario of 65 million dead due to a fictitious coronavirus pandemic?

2. The virus first appeared in Wuhan. Just a coincidence?

Three possible **origins** of the corona virus

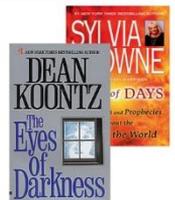

- 1 Wuhan Virological Institute which, according to the German “Tagesschau”, is the only Chinese laboratory working with biological substances and viruses of the highest risk level.
- 2 However, there is another laboratory in Wuhan that works with viruses: WuXi PharmaTech Inc, financed by US-billionaire George Soros.
- 3 Military World Games October 18th to 27th, 2019 in Wuhan: Articles on popular Chinese websites accuse American athletes of having spread the virus. The virus is said was created by the CIA to weaken China.

? *Could the corona virus have been deliberately released at the site of outbreak or are these all just conspiracy theories and coincidences?*

3. Two best-selling authors describe the current pandemic scenario in detail

The science fiction thriller “The Eyes of Darkness” (1981) by Dean Koontz, written about 40 years ago, and the prophecy “End of Days” (2008) by Sylvia Browne, describe the current pandemic scenario in detail. The bestselling author Dean Koontz writes about a virus originating from a Chinese bioweapon laboratory in Wuhan triggering a pandemic. “End of Days” predicts a pandemic in the year 2020, in which people will die of lung failure!

? *Mathematically speaking, for so many details of the pandemic outbreak, as described in “Eyes of Darkness” and “End of Days” to coincide naturally would be a once in 355 million year occurrence. Just a coincidence that it's already happening after only 40 years?*

4. Who benefits from the Coronavirus?

At the end of February 2020, the stock markets suffered major losses due to the Coronavirus. Who profits from it? Once again it's large corporations and pharmaceutical giants such as Nestlé, Novartis and Roche, the latter of which can score with another award by the US Food and Drug Administration (FDA). A state of health emergency, bans on events, the misery and fear that is imposed on the people, it all results in a multi-billion dollar sum for the pharmaceutical industry. **Keep an eye on who is profiting from the Coronavirus in the coming months and which kind of higher goals are being pursued by it!**
